Summary

With over two years of experience in front-end development, I am a certified Vue.js developer specializing in building responsive web applications using both the VueJS and React.js frameworks. Skilled in tackling complex challenges, I bring proficiency in advanced technologies, database management, and RESTful API development using Node.js and Express.js.

My active contributions to open-source projects like AntDesign, MSAL, VueSchool, and PrimeVue reflect my dedication to collaborative software development. Additionally, I have hands-on experience leveraging my expertise in dynamic team environments on commercial projects.

Key Competencies

Programming Languages / Technologies

JavaScript / TypeScript

HTML / CSS / SCSS

NodeJs / Express

Microsoft Azure Authentication (MSAL)

REST API / WebSocket

Protobuf

Databases

MongoDB

Operating Systems

Windows

Linux

Frameworks / Libraries

Vue.js, Vue Router, Vuex, Pinia

React.js, React Router, Redux

AntDesign, Vuetify, PrimeVue, Tailwind

Axios

Vue3 Gettext

Vitest / testing-library / test-utils / Jest / Cypress

Development Tools

Jira, Confluence

Git, Gitlab, Github, Bitbucket

VsCode, WebStorm

Swagger

ESLint, Prettier

Languages

English – Upper Intermediate (B2)

Ukrainian – Native

Education

Certified Vue.js Developer Exam

<https://certificates.dev/vuejs/certificates/9b7bf701-2b35-4e57-a53d-3358324a20ec/share>

March 2024

Levi9 FrontEnd Academy

Nov 2021 – Jun 2022

Computer System Engineer, Master's Degree

National Aviation University

Sep 1997 – Feb 2003, Kyiv

Experience

Frontend Developer

Levi9

June 2022 -present, Kyiv

Developing efficient, fast, and adaptive layouts for user interfaces, ensuring optimal performance and responsiveness. Introducing ideas and solutions, optimizing and improving existing applications to meet modern web standards and user expectations.

created modern, responsive web interfaces using the Vue.js 3 Composition API, collaborating with a development team

worked extensively with complex form components and validation

implemented offline capabilities based on registration state from Session Storage

integrated identity provider (MSAL) with proper configuration on both sides

resolved an issue with drag-and-drop modal window functionality by contributing to the open-source Prime Vue library

utilized the Readable Stream API to optimize performance while loading large amounts of data from the backend

Frontend Junior

Levi9

November 2021 – June 2022, Kyiv

Collaborated closely with developers and web designers to enhance product quality and user experience.

Customs Officer

State Customs Service of Ukraine

April 2003 – November 2021, Kyiv

As a Customs Officer I was responsible for the customs clearance of goods.

Commercial Projects

Feedback App		Jun 2022 - Present
Project Description	Effective feedback collection tool that provides a way to capture the result of the interview and visualize it in all-in-one report	
Project Role	Frontend developer	
Responsibilities	Taking part in early exploration phases of the service development in close collaboration with stakeholders. Writing and implementing maintainable, reusable and consistent code, testing, code-reviewing. Active part in agile way of working, sprint planning, retrospective work	
Tools & Technologies	Vue.js 3 (Composition API), React.js, Express.js, TypeScript, Pinia, Vite, Vue Router, Ant Design Vue, SCSS, Cypress, Vitest	
Smart City App		May 2023 – Jan 2024
Project Description	The WebUI admin panel for the service workers provides functionality for check and adjustment of the RSU device	
Project Role	Frontend developer	
Responsibilities	Taking part in the implementation of new features in an existing project. Localization of the project content. Writing and implementing maintainable, reusable and consistent code, testing, code-reviewing. Active part in agile way of working, refinements, sprint planning, retrospective work.	
Tools & Technologies	Vue.js 3 (Composition API), Javascript, Vite, Vue Router, PrimeVue, MapLibre, Turf, Vue3 Gettext, WebSocket, Protobuf
